### *Astrological Book of Life for Li Zhou Zhou*

*Dear Li Zhou*

Basically, I will give this reading to you in 3 parts, the part one is about your Birth Sign, purpose of it is to check whether we are reasonably correct in determining the Birth sign and casting the chart. Part two is to give you information about the planetary positions in your chart, such as the effects of the positions of planets in your life, special

combinations, current position of some of the planets (transit) etc. Part three is predictions for the future according to my interpretation.

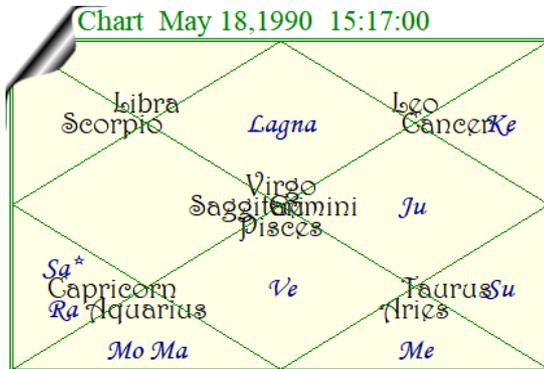

I have spent a lot of time preparing this reading for you doing my best to make it understandable and useful one for you for years to come. Though I use my computer to write this reading, this is not a computer generated report. This is a personalized reading unique for you.

Hope you will be happy with the reading and will recommend the readings for your friends and family as I do not advertise my services elsewhere. I believe that, each time I do a good job according to my best of ability, my work will speak for itself and it will always keep me busy through good recommendations and returning clients.

Your question is answered below, but better to read it within the context of the process of reading considering the whole situation as a system therefore I have repeated those at appropriate places.

## Reading - Part one

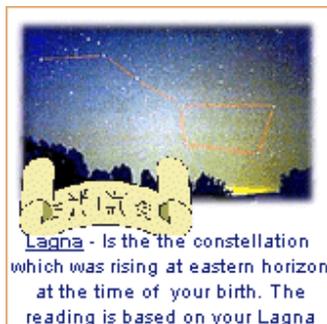

Except for an occasional few deviations, the general feedback I got from the people for whom I did readings during past 10 years, was “What was predicted in the reading had happened as told at the said periods”. That means there can be a certain probability of the said things happening. But at the same time, I would like to caution you for the fact that, in real life, things may not

happen exactly according to astrological predictions. Apart from the planets or the destiny, so many other factors can influence a persons course of life. In it’s totality, it is a system which is dynamic and constantly changing with the influence of various causes such as good or bad friends, associates, parents and family, country situation, purely accidental happenings, natural disasters etc. to name a few.

This reading indicates the potential you can achieve provided that you make an honest effort without mucking up your life by association with bad friends or bad habits. If you destroy your life then however good your horoscope could be the said good things may not have a chance to come in to fruition. After all the earth is a planet of freewill.

Therefore no astrological reading, including this one, should be taken as gospel and you should not center your life on astrological predictions. It should only be used for personal philosophical research in the quest for better understanding of why some things are happening in life according to certain patterns.

## Your Birth Sign

I had taken your time of birth and proceeded from there. According to my calculations which I did according to Hindu Vedic Astrological methods, you belong to the sign of Virgo. (Please do not get confused with your sun sign /Taurus/ of Western Astrology. Hindu Astrology and Western astrology are two different systems, it is like Western Medicine and Ayurvedic or herbal Medicine and each one has own methods. If you wish to know the difference between Eastern and Western Astrology , you are

invited to visit the following page of my web site. <http://jyotisha.00it.com/Difference.htm>) Unlike in western astrology where all the people born in whole world within a month, is classified as belongs

to the same sign, in Hindu astrology we say that people belong to all the signs can be born at a given spot with in 24 hours roughly 2 hours per sign.

## Virgo

According to Hindu Astrological classification you belong to Virgo. Virgo is the 6<sup>th</sup> sign of the Zodiac. The symbol is a maiden, indicating shyness, an interest in purity, and a certain lack of skill in worldly matters, even if worldly-wise. The maiden holds a bundle of grain in one hand and fire in the other, which may imply food (e.g. the service and hospitality )Since Virgo is the 6<sup>th</sup> house of the natural zodiac and so indicates disease, and since the Sun rules the twelfth house of hospitals, people born in Virgo tend to be very interested in hygiene and health

care.

## Physical Appearance

At the time of your birth, the constellation Virgo was rising in the Eastern Horizon of Shanghai China. Persons born in Virgo are tall with a slender body. Therefore you should have a medium or slender body which is hairy. You have curved and hairy eyebrows, a pronounced forehead, frank and honest expressions of the eyes and beautiful eyes. You possess a thin, shrill voice, walk quickly and have not a flat but a straight nose and though you may put on weight with age, will never have a pot-belly. You may appear younger than your actual age.

## Mental Tendencies

You are fond of learning, have an active mind and good mental abilities. You are also critical, methodical and ingenious. Undecided but usually precise though nervous, and lacking self confidence. Perceptive and somewhat intuitive, keeps things properly and orderly and thinks in a methodical way. A genius of a kind who is analytical and a deep thinker.

## Personality

You are ambitious for wealth, modest. You have a saving disposition, over careful and sensitive, thoughtful, contemplative and industrious. You are a very orderly and methodical person. You are fond of quick changes. May change residence frequently. You are capable of handling even very unfavorable situations to your

advantage. You have good endurance, not easily contented. You are thorough, methodical, practical and discriminative.

You have sound commercial instinct and want to grow rich as quickly as possible. Expert in finding faults with others. You love to have details of things and accounts. You are speculative, but cautious regarding your own interest, diplomatic. Gain delight in horticulture. You are intellectual and economical. Prudent, act with fore-thought, fond of studying science, particularly about medicine, food, diet, hygiene etc. You need to develop self confidence in your abilities and skills. You fear of getting sick and may even get treatments for ailments which you do not have. You may get problems in stomach area.

Li Zhou, up to this point I told you is not all but some of the distinguishable features and trends and habits you should possess if you are a Virgoan born at the given time.. Since now you know it, It is up to you to decide whether you are truly an Virgoan. Because only you know about you better than anybody else. If you think what I have told you is correct, then your time of birth given to me is accurate.

### *What is an astrological reading*

Li Zhou, before we go in to the next part of our reading, I would like to tell and caution you, that an astrological reading should not be taken as a gospel or the absolute certainty. And you should not center your entire life on the basis of astrology alone. It is only a tool but an efficient one, which helps you to understand yourself better, in a different perspective. Say it is like a manual of a car a horoscope reading shows the potential you can achieve as it was at the start line.(Which was many years ago at your time of birth.) And what troubles and repairs you can expect after such and such kilometers of driving. But how do you drive your car after you have taken it out of the factory is up to you, and also depends on many other factors, such as your freewill of decision whether to maintain and drive carefully or not, unexpected happenings on the road and so on. Therefore, there is no certainty that the events we discuss here must happen as stated. What we talk here in this reading are about the probabilities of certain events occurring.

The many of the happenings what we are going to examine here are natural phenomena's. Nature does not have abrupt demarcation lines. Everything fades out and the new period or phenomenon dawns gradually and very slowly. The same is true for the end of one constellation and the beginning of another. There are no clear cut lines in the sky to separate one group of stars from another, therefore one astrologer can give one date and another astrologer another date, but usually it should fall within an acceptable margin of error.

Provided that you are satisfied with the correctness of the Lagna (Ascendant), now I am ready to tell you a little bit more about your natal chart in the second part of this reading which is exclusively written for your horoscope. It will be

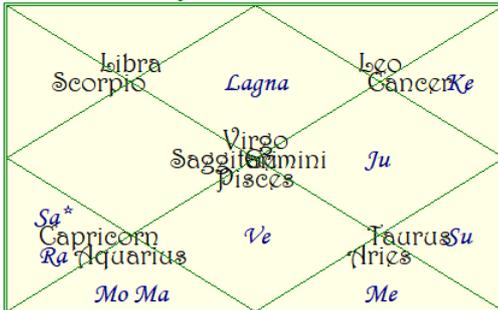

useful to you for better understanding of yourself and the things to be expected to happen to you in future.

### Rashi Chart

A horoscope is a two dimensional picture of the sky indicating the positions of the planets and the constellations at the time of birth. The locations of the planets and the constellations, centered over your place of birth at the given date and time are provided in the chart under the heading “Rashi”. The Rashi Chart is the main chart and the Sign of the 1<sup>st</sup> house of this chart is your “Lagna” or the Birth sign, meaning that it was the sign or the constellation, which was visible at Eastern horizon at the time of your birth. Lagna in Jyotish system differs about 23 degrees from the Rising sign calculated by Western astrologers. Houses are counted anti clock wise meaning that it is counted in the opposite direction the hands of a clock is moving, example, the first house (or the Eastern horizon) is where the number 12 is in the clock, second house is where 11 is, and 7<sup>th</sup> house or the western horizon is 6 O’clock and 10<sup>th</sup> house or the Direct over head is where 3 O’clock is in the watch. If we say that Sun is in the first house, that means the Sun was near the Eastern horizon or in other words a morning birth, If Sun is in 10<sup>th</sup> house, that means the birth had happened during the daytime when Sun was up overhead in the sky. Sun in 7<sup>th</sup> house means the birth was in the evening and so on.

### Navamsha Chart

Navamsha chart is the secondary chart. Each constellation (30 degrees arc) is divided in to 9 portions and Navamsha Lagna indicate which portion of that

particular constellation was appearing at the time of birth. It is like mentioning in an address ex. House No. and then the Room No. or the flat number.

The advice of the Sages in analysis and interpretation of a horoscope is to take the Rashi as the flower and the Navamshaka as the fruit or the result of the flower.

### *How the day is counted*

Li Zhou, I think I must first explain you, how a day is counted According to Astrology. For astrological matters, the Day is counted from one sun rise to next sun rise and not from starting at 12 Midnight as we are normally used to. For an example a person born at Monday 4am is still counted as one born at Sunday Night.

You were born on a Friday. And your birth happened at daytime. Birth was at daytime in the dark half of Moon.

A person, born during daytime in the darker phase of the Moon, is brilliant, resembles her father, possesses wealth and honour, has beautiful eyes, receives love and affection from the king (can get in to positions of government or large corporate service such as hospitals, banks or big companies), is respected by friends and will be rich.

### **FRIDAY**

A person born on this day, is happy, intelligent, loves clothes of white and light colours and inclined towards virtuous path.

Born in Kanya Lagna (Constellation Virgo) at a moment when Cancer (Kataka) Navamsha of the Lagna had started rising at the Eastern horizon of the place of birth. And this particular position is called as the Lagna is positioned in Labamshaka because, the Navamshaka position is related to the 11<sup>th</sup> house in the Rashi Chart.

Li Zhou, according to the text “Hora Sara” by sage Prithuyasas, persons born in Cancer (Kataka) Navamsha have intentions to go to foreign places and are helpful to relatives and the family, the 8<sup>th</sup>, 18<sup>th</sup>, 21<sup>st</sup>, 22<sup>nd</sup> and 72<sup>nd</sup> years of life will be troublesome and evil periods, when one may suffer from personal troubles such as problems in relation to career, love, finance, unexpected troubles or ill health ect. So you have to be careful during those years (Ex. Take flu injections, do not drive fast. Be patient in troubles ect.)

### *Droshkana*

Each sign (30 degrees of arc containing 9 Navamshaks) is subdivided in to three parts, beginning (first), middle (second) and end (third) of 10 degrees each called Droshkanas (Decanates),.

Born in the Third Droshkana (Decanates) of Kanya Lagna (Constellation Virgo).

People born in the Third Droshkana (Decanates) of Kanya Lagna have the capacity to earn well during the first half of their life. But if they waste money at that time they will regret about it in the latter part of the life. Unexpected incidents can tarnish their life and should not invest or engage in risky investments or gambling. 20, 26, 35, 40, 44 and 50 years of life could be important or gainful periods in regard to personal or money matters. At those times you can expect some improvements in personal life such as success in relation to career, love, finance unexpected gains and also can try occasional lottery luck, like lotto etc., but I do not encourage people to gamble

### *Past life*

Manik Chand Jain, in his famous work “Rahu and Ketu” (Moons’s Nodes in Predictive Astrology - Sager Publications, New Delhi, 1994, Chapter 6) Says,

When Rahu is Positioned in Capricorn, the past life was spent on various domesticated activities, since the home and the surroundings was the key focus, there was no chance to go out and do things like helping others. As a result of this the person is required to do lot of things in this life out side of her home with much sympathy for others.

### *Birth Star*

Li Zhou, the meaning of the word “Nakshtra” (Birth Star) is Minor Constellation. Apart from the 12 Major constellations “Mesha” (Aries) to “Meena” (Pisces), there are 27 Minor constellations or “Birth stars” in the sky. When we talk about “Janma Nakshtra”, we are referring to the particular Minor Constellation, where the moon was positioned at the time of birth. Planetary periods or “Dashas” in a Horoscope are calculated according to the position of moon in the Birth Star.

Birth Star is SIYAWASA.

Since your “Janma Nakshtra” is “Siyawasa”. Lord of the “Siyawasa” Minor Constellation is “Rahu” Therefore born with the Major Period (Maha Dasha) of “Rahu” in effect.

As I have mentioned earlier Li Zhou, at the time your of birth, Moon was positioned in the Minor Constellation Satabhisha (Lambda Aquarii) or “Siyawasa Nakshtra”, which is now your “Janma Nakshtra” or the Birth Star.

Each Minor Constellation (Nakshtra) is divided in to 4 sectors (4 quarters) and a quarter is called a “Nakshtra Pada”.

Born in the 1<sup>st</sup> quarter of Siyawasa. According to the opinion of the sages, those born in the first pada are truthful, stable minded, proud and friendly. They are soft spoken, healthy, religious, have many friends and brave. They are of helping nature, endowed with good qualities and love their relatives.

## *Planetary positions in your horoscope and their meaning to you*

Now I am going to take you on a guided celestial tour over the sky on your moment of birth describing and showing you the planets, constellations and their positions and at the same time telling you the possible effects of those planetary positions on your life, so that the fullness and the completeness of the reading is maintained.

Li Zhou, there may be occasions with contradictory remarks under different planetary positions. On those occasions you should remember that the effects are cumulative and the influence of any particular planet is more prominent during the period or the sub period (Dasha ,Anthar Dasha) of that particular planet.

Some people who read their life reading in a hurried manner get confused when they encounter those contradicting remarks. You must understand that the life is full of contradictions. For the purpose of explanation let us take a well known recent example, Saddam Hussain. Is he a good looking powerful man who lived in a palace, a brave heroic leader who was not afraid of the power and might of allied forces or is he a dirty, unshaven, frightened of US forces old man with no friends hiding in a rat hole wearing filthy garments and eating stale food?.

Both are correct. Planets in good powerful positions and placements like exhaled can give wealth ,beauty, power and comforts during the period or the sub period (Dasha ,Anthar Dasha) of that particular planet and once that period is over the things can turn opposite, if the next planet in line under the Dasha system is unfavorably badly placed like debilitated etc.

Therefore, at one moment you could be sad and within a short period you may be full of joy. Good and bad, happiness and sorrow woven together in an entangled and mixed experience called life.

Same thing goes in regard to occupations. At ancient times it was easier. You are either a farmer, warrior, Metallurgist, priest or a doctor. At present it does not work like that Occupations are mixed and the same person can be described as a person good for a number of jobs.

For an example only by looking at the horoscope, how can you describe an Engineering graduate with post graduate qualifications in economics and working as an economist who develops computer based production and sales modeling for a chemical Corporation. An Engineer ? Mathematician ? Chemist ? salesman ? Advisor ? Economist ? Accountant ? Computer Programmer ? Executive ? None of the above said occupations may not exactly describe him.

Some parts of the readings may seem unlikely to happen. But before commenting on it, please remember that ,this is a reading which covers whole of your life and your life is not over yet. What we think is impossible today may become quite possible in a years time.

Therefore the following part of this reading is to provide all the information necessary for you to make an informed assessment of the strengths and weaknesses of the planets in your horoscope. It is not for the purpose of giving you my judgement about the planets in your horoscope, that I will do in the predictions part, but the purpose of this part is to provide you with information in regard to the basic trend the planets are indicating that, how the events will unfold for you. But please understand that, honestly that there are no astrological techniques to tell things like. “Today you will take dinner at Macdonald’s and Tomorrow at Pizza hut and meet John at shopping mall, and day after a secret admirer will send a SMS text message to your mobile phone”. If you are expecting such type of predictions, then you will definitely be disappointed. Now we are ready to go through your basic horoscope, which is mainly the “Rashi” chart.

As I have sufficiently explained in part two Li Zhou, your Lagna is “Kanya” (Virgo) and the lord of Lagna is Mercury.

### *Good Periods for you*

Venus (2<sup>nd</sup> and 9<sup>th</sup> Lord) is the Benefic for you. Therefore whenever you undergo the Major Periods (Maha Dasha ) or the Sub Periods (Anthar Dashes) of Venus, then at those times you will get more good effects. That is the general rule, provided that Venus was not badly positioned in your Birth Chart or the Navamshaka Birth Chart. If so then I will mention it when will discuss about each planet.

### *Bad Periods for you*

Mars (Lord of 3<sup>rd</sup> and 8<sup>th</sup> houses) and Jupiter (Lord of 4<sup>th</sup> and 7<sup>th</sup>) are the malefic planets.

### *Lord of the Birth Sign*

When reading a horoscope a very important place is given to the Lord of the ascendant or the “Lagnadipathi”. Lagna signifies your self and the “Lagnadipathi” the personality.

The lord of the first house Mercury, is in the eighth house. This is not a good placement you may get involved in legal battles.

### *Sun*

Sun is the Lord of the solar system. Sun signifies the heart, blood and the mind of a person and gives the power, agility, longevity, authority and the fame.

Sun in the 9<sup>th</sup> house. You are a person attached to your father. But your father may not be lucky enough to develop sufficiently, the fatherly bond with you due

to his absence as a result of the nature of work or some other reason or circumstances. Or else you may not get your due inheritance or properties from your father. Your marriage or some other action may cause distress to the father.

You may get higher education as the Sun in 9th house can make you a very intellectual person.

Most probably you may go abroad several times and you will become the most distinguished person in your family circle.

When Mars Aspects the Sun in Taurus : The native acquires wealth and fame by courage and aggressive nature, but is restless.

Sun in Taurus. It is a good position in regard to wealth specially properties, you may become a wealthy person, good for farther, good marriage, healthy.

### *Moon and the Janma Rashi*

Moon signifies the mother of the solar system and represent the thought process of the mind. Moon has a very important place in vedic astrology, therefore the Moon is called the “Janma”. The sign Moon is positioned is as the “Janma Rashi” or the “Janma Lagna”. Some South Indian Astrologers give such prominence to it many people end up in getting confused with the “Lagna - The Birth Sign or the Ascendant or sometimes with the Western Sun Sign.

You need to remember the difference between the Lagna and the Janma Lagna. It is, that the “Lagna” is the sign that appeared in the eastern horizon of your place of birth at your time of birth and the “Janma Lagna” is the sign where the Moon was located at your time of birth.

North Indian and Sri Lankan Astrologers or the majority of astrologers give prominence to the Lagna in their predictions saying that the Lagna or the Sign which appeared in the East, signifies the person, his physical body and the character, (Thus in short the person who actually is), thus the “Lagna” should be given more emphasis while some South Indian astrologers say that, the position of the Moon or the “Janma Lagna” signifies the mind and thoughts and it should be the basis of predictions (In Short the person he think who he is or the perception).

I follow the North Indian Tradition, and also believe that that the person who actually is, sometimes can be different from the person who think he/she is, and the person who actually is, more important than the who think that who he is, for an example a person can think that he is very brave and generous, but when the time comes he may prove to be a cowardly and miserly person in the eyes of the others and therefore Lagna is more relevant than the Janma Rashi.

Li Zhou, Moon is in Aquarius constellation and therefore they may say that your Janma Rashi is Aquarius. Meaning that, the Moon is positioned in Aquarius Sign.

Moon is a malefic planet for Virgo.

In your horoscope, moon is in the 6<sup>th</sup> house and according to Sri Lankan astrology it is not a very desired position as it can cause frequent ailments. Specially in the area of stomach and the digestive track such as indigestion, heart burn, bloating or stomach pains.

Luckily for you, Moon gets the Full Aspects of Jupiter which is a Beneficial planet.

When Jupiter Aspects the Moon in Aquarius: The native is sexy, will have a number of houses and properties, lands and orchards. Is a good and gentle person.

Moon in Aquarius. It is a combination which shows keen intelligence, a kind of a researcher, Good for education, intuition, sympathetic, a social worker and a teacher, attached to the mother and devoted and respectful. Good team worker. Attracted to religion and religious ways, Good person but not born for married family life and works more towards improvement of afterlife than present conditions.

Moon Conjunct with Mars is a good planetary combination. Healthy, courageous and generous person.

## *Mars*

Mars represent courage, the self-confidence, activeness and the desire to win or gain control and is the maker of blood and the muscles.

Mars is strong in your horoscope.

Mars was in the 6<sup>th</sup> house when you were born. It is a good position which can deter your enemies as they are afraid of you to do any harm. You may get a good looking physique and will have attractive partners. Your mind is good but the same configuration can cause long lasting ailments in the area of stomach and the digestive track such as gastric problems and for females difficulty at giving birth to children. Such as difficulty in child births or having to undergo abortions ect

When Jupiter Aspects Mars in Aquarius: The native has a number of good relations and is endowed with various good qualities. Works diligently and long-lived.

Mars in Aquarius. Intellectual with quick grasping ability, a social worker of a sort and may help people in distress or illnesses, kind and good administrator, has good communication skills and convincing ability good in professions related to law or medicine, quick witted and Scientifically inclined minded, good for team work and partnership business. May die in a foreign country or a place far from place of birth. If a person with a matching horoscope is married then **Marriage to a well to do family.**

## *Mercury*

Mercury is the smallest planet in the solar system, the lord of communicated knowledge and transportation.

According to your birth chart Li Zhou, Mercury is in the 8<sup>th</sup> house. You are an attractive person with good looks and pleasing appearance. When Mercury is positioned in 8<sup>th</sup> it can cause some marital problems in relation to illnesses or finance resulting in uneasiness in mind.

Mercury is in Aries, active, intelligent, quick in thought and speech, good for debates and knows how to present things orally.

## *Jupiter*

Jupiter is a beneficial planet. Jupiter influences the religious bent of mind, generosity and is the governor of offspring's.

Jupiter is in the tenth house. This is a good position for Jupiter indicating an ability to engage in a permanent long term occupation and a good physique and the capability to be in an authoritative position. This is an ideal position in regard to government service. All round success and gains from superiors.

Gemini is the Sign Jupiter is in. Indicating that you are good in studies, well educated and very intelligent. Have the ability to correctly foresee the way things are going to happen in the future. Your friends are of good standing and character. May get a very good spouse and most probably a person known to you for a considerable period of time.

Since, Jupiter is positioned in a friendly sign for Jupiter in your Navamshaka birth chart, and this is an advantageous position for Jupiter. As a consequence, it may yield the favorable effects of Jupiter to some degree.

## *Venus*

The most brilliant planet Venus indicates beauty, love, friendship, hospitality, spouse, happiness, and the businesses associated with trade, banks, insurance, hospitality, music or customer services.

Venus in the seventh house. Love affection and partnership are sources of success. Gain after marriage and social success. Happy domestic life. Rich and good looking partner, faithful, sincere and devoted. Success in public relations, enjoyment and happiness. Timely marriage. Good for partnership businesses.

When Saturn Aspects Venus in Pisces: The native has an attractive personality; he is always wealthy, happy and in command of luxuries. He leads a happy and comfortable life

Venus in Pisces. Venus in exalted sign, you are always ready and willing to help people in distress, kindhearted, charitable, hospitable, desirous of peace, luxury and comforts, Good business skills, gains through friends and clients, Good for occupations related to medicine or beauty therapy.

## *Saturn*

Saturn is generally termed as a malefic planet. But the good or bad effects of Saturn mainly depends on the Strength, position and aspects at time of birth. When Saturn is powerful and well placed it makes the person persistent, preserving, prudent, kind, and considerate, otherwise when Saturn debilitated, misplaced or afflicted at birth it indicates, skeptical, indifferent, suspicious, pessimist and unreliable.

Your Saturn is powerful.

Saturn is in Vargothama (in same or identical sign) Navamshaka. Since Saturn represents mental and moral courage, endurance, discipline, persistency and patience, being endowed with this powerful positioning of Saturn, you can be a person gifted with the above said good qualities.

Saturn in fifth may cause troubles in relations to children or disappointments in love affairs, attachments to people older than you. Gains through real state, mineral resources, mechanical or engineering related activities, unfavorable for speculation or gambling.

Saturn retrograde (Moving towards the opposite direction). With Saturn retrograde there is a need to be on guard against a subconscious defeatism which can undermine the most noble of ambitions. Because of this self protective fear motivation, the person can yield too easily to external influences.

Such people have strong sense that, fate or some universal compelling force controls their destiny. Therefore they feel alone, isolated, separated from their fellow men and seldom understood. Such people prefer not to be known openly in public, and would like to operate while sitting or working behind the seen or a curtain of some other name or a company name. There may be an apparent sophistication about them an impression that nothing could shock them. They find security in intellectual or spiritual pursuits.

Saturn in Capricorn. Saturn in Own Sign. Reserved, Diplomatic, serious, Deep thinker, Good reasoning ability, Ambitious, unreliable friends, learned, famous, Gains from marriage or will become prosperous after marriage, Generally lives away from home or place of birth. Good in hands on types of work or trades.

When looking at your Navamshaka birth chart, I can see that Saturn is positioned in own sign and this is an advantageous position for Saturn and provided that you do remedies, it may help to produce the favorable effects from Saturn.

## *Rahu*

Rahu is not a planet it is a mathematical entity which has a great signification in Sri Lankan and North Indian Astrology. In Western Astrology Rahu is called Dragon's head.

Rahu in fifth troubles in regard to children or lack of children, worried, disappointments in romance, ailments in chest and stomach, Unexpected gains of wealth, intelligent, fond of learning.

## *Ketu*

Like Rahu, Ketu is also not a planet and is a mathematical entity which has a great signification in Sri Lankan and North Indian Astrology. In Western Astrology Ketu is called Dragon's tail.

Ketu in 11th house. An excellent position for the inflow of money, luxuries, good learning, popularity, authority, gain and success, can speak well, performs good deeds, but may worry about children or may not gain happiness in regards to sons or children and may suffer from ailments in stomach or anal area.

## *Planetary Aspects*

In Vedic Astrology, Aspects of the Planets are determined, according to the rules mentioned in Shlokas (Shlokas are Verses contained in ancient texts such as, Garga Hora, Vruhath Parashara Hora Sashtra ect.) like "Three, Dasha, Saturn, Ravi.." Those types of aspects I have already mentioned in the previous section under each planet.

The angular difference between the longitude of two planets, also has some astrological significance. The astrologers of West, consider it more seriously than the astrologers of East. (No matter how you calculate the horoscope, whether it is according to the Vedic way or according to the Western way, the distances between planets stays the same at a given moment).

For an example, Venus SEXTILE Mars means that Venus is roughly 60 degrees away from Mars. Five aspects have significance:

CONJUNCT aspect = 0 degrees. The meanings of the two planets combine-forces concentrate.

SEXTILE aspect = 60 degrees. The two planets complement each other harmoniously.

SQUARE aspect = 90 degrees. The planets obstruct/conflict

with each other, creating friction/tension.

TRINE

aspect = 120 degrees. The two planets counterbalance each other harmoniously.

OPPOSITE

aspect = 180 degrees. The two planets pull in opposite directions, undermining or destroying the existing order.

### *Li Zhou, following are some of such aspects present in your horoscope*

Sun square Moon (Sun was positioned about 90 degrees from Moon On the Date of your Birth,) signals a conflict between the conscious and subconscious of natives. A lack of understanding of the opposite sex could have more to do with a poor childhood than outright disinterest. These people dive into things as a means of escape.

Sun square Mars (Sun was positioned about 90 degrees from Mars On the Date of your Birth,) instills a recklessness that may lead them to do just about anything that brings the slightest pleasure. These are people of passion,

unchecked by reason. Sometimes violently cruel, they should not possess firearms.

Sun trine Saturn (Sun was positioned about 120 degrees from Saturn On the Date of your Birth,) such people usually are goal-oriented and well-equipped to excel in scholastics. Organized and honest, people born in this transit usually possess a conservative nature.

Moon conjunct Mars instills deep feelings that may ignite a short temper or cause jealousy and emotional duress if not put in check. Such people have a restless energy that is sometimes manifested by impulsiveness. Much can happen if this energy is channeled.

Mercury sextile Moon make fine teachers because they are usually adept at taking the complicated and breaking it down to understandable terms. Usually, they possess fantastic memories and razor-sharp minds.

Mercury sextile Mars born people do not like to waste time or energy. Their minds are logical, and they usually are brilliant strategists. They love to debate, and will voice their opinions bluntly but eloquently.

Mercury square Saturn born people will have to battle a natural tendency to remain narrow-minded and keep the status quo. This may inspire pessimism and stifle creativity. Cigarettes are especially harmful to these natives.

Venus sextile Saturn born people will sacrifice much for other people, and remain very loyal to those they trust. A deep spirituality emerges as this person grows older. Their relationships last lifetimes because of their untarnished character.

## *Special Planetary Combinations (Graha Yoga) present in Your Horoscope*

When reading a horoscope it is important to check for the special planetary combinations or the Graha yoga. Following are the some of the combinations present in your horoscope. Though these yogas operate throughout the life time, in general, effects are more clearly visible during the Major and the sub periods of the planet or planets involved in forming that particular yoga.

### *Kalasarpha Yoga*

All planets are clustered in to the one side of the sky between Rahu and Ketu.

At the first glance at your birth chart you will see that all the planets are clustered in to the one side of your horoscope between Rahu and Ketu. In other words all the planets were in the one half of the sky (roughly 180 degrees) at the time of your birth. This is a kind of a yoga (Combination) called “Kalasarpha Yoga”. In the root language Sanskrit “Kala” means Time, “Surpha” means serpent. Serpent is a kind of concealed danger. It may or may not strike, but if careless and given a chance it can strike. Therefore Kalasarpha Yoga means the danger concealed in time. Which can activate if given an opportunity and will cease to exist if no suitable opportunity was found (“Uppapajja Vadaniya Karma” & “Ahoosi Karma” according to the Buddhist theory and classification of Karma ).

Generally, people with Kalasarpha yoga rises in their life very quickly According to Dr. L.R. Chawdari, even Pt. Jawahar Lal Nehru’s horoscope had this yoga covering 6/12 bhavas (Scientific Analysis of horoscope Pg.518).

But their fall is also very quick. For an example a very Populer Sri Lankan late Minister Lalith Atulathmudaly also had this particular yoga and an Indian astrologer had once forewarned him about this yoga but disregard of it had caused him dearly being shot by a terrorist at an election meeting. If lived he would have been the next president of the country.

There is nothing to worry about. What I told you is an extreme example and not all the people with Kala Surpha Yoga had faced such bad incidents. What I wanted to emphasize was being a little bit more careful and vigilant is better than being sorry later. And for the ordinary people like us, the areas it can effect are the break up of the marriage due to own negligent attitude, or sudden ailments or accidents. Knowing that you must be careful and never ever take any unnecessary risk such as fast driving, diving ect and be understanding and patient in married life.

Usual periods of effects are Major Periods or the Sub periods of planets Saturn, Mars Rahu or Kethu. Or else around 36 to 46 years of age. Therefore during such periods you must be very patient and careful.

It does not mean that product cease to exist from that date or suddenly becomes unfit for consumption.

## *Possible cause of death*

## *Reading Part Three*

### *Predictions for the future*

In the preceding sections, I will explain about the bad periods called “Aerashtaka” according to transit of Saturn in relation to the positions of Natal chart and the Moon. And later about the planetary transits in this year and the coming years and predictions on yearly basis according to these transits of planets including Saturn.

### *How to understand and benefit from the predictions*

Let me clarify this by an example. Let us take the analogy of how we predict weather. There are basically two or three ways to predict whether and climate in any particular place. One, according to the unique position of that place in the globe, such as Caribbean, North America, Sub Saharan Africa, Eastern Europe, Middle East, SE Asia, Out back areas of Australia ect. There are definite and distinct climatic conditions in each of these places which affects the general pattern of the life of a person who live there.

When you compare it to this astrological prediction, it is similar to the first part of the my reading, the predictions in regard to the positioning of planets in the horoscope, such as Sun, Moon, Mars ect. which indicates how the general condition and the pattern of life will flow for that particular individual.

But that is only one part of the prediction because, saLing a thing like, “Oh, this person is positioned in Sub Saharan Africa, therefore he must be constantly experiencing water shortages and frequent sand storms” will not be enough, though the above said was a very influential factor in that persons day to day life, there are other conditions also you need to check, for an example the seasonal changes of weather.

Because the pattern of life changes according to the seasons , say summer, good weather , sunny ect. (Similarly according to different planetary periods or dashas the pattern of life changes) , not only seasons, the weather changes according to transit of clouds and winds, reflected in atmospheric pressure changes, low pressure or too much water vapor in air = bad weather, high pressure is associated with anticyclone or generally good weather ect.. Even if it is technically summer or good season, a low pressure system or the transit of clouds and winds, can

modify or change the weather pattern. For an example, even in summer, there could be bad weather with cold and windy periods. Similarly the transit of planets such as, Saturn, Jupiter or Rahu or Ketu over a certain position or a house in the horoscope can modify the general pattern of predictions.

For an example, Saturn's once in 30 years transit over the 8<sup>th</sup> house of the horoscope is a bad period called "Ashtama Aerashtaka", and the Saturn's transit over the original position of Moon in the horoscope is called "Janma Aerashtaka" and both of these periods are being dreaded by millions of people in Indian Subcontinent because, even if all the other conditions are favorable, it is very rare, that a person can fully escape the bad effects of such a transit. (Ex. Previous president of Sri Lanka Mrs. Chandrika Bandaranayake, she won an election and became the president of the country during one such transit of Saturn. Good ? yes, the cost? her husband Mr. Wijaya Kumaranathunge was killed by a gunman and she also lost left eye due to a bomb attack while she was addressing an election meeting) So good, but rough and tough.

Similarly, in the predictions section of this reading given below, on some occasions Li Zhou, you will come across contradictory remarks such as good time according to Planetary Periods and Planetary transits, but a bad time according to Ex. Saturn's position in the Natal Chart. That means if you will do some remedies to take off the bad effects of Saturn then you will get the benefits of the good effects which are told under the Planetary Periods or the Planetary Transit.

If all three or two types of predictions are bad for a said portion of time, then it is a really bad period. If bad time is predicted under the Planetary Transit and good time is predicted for the same period under the Planetary Periods, then you will get a mixture of the said effects until one of these periods or transits are over or until you will do some remedies in regard to badly influencing planet. Apart from the specific remedies for each planet, some of the general remedies are engaging in good activities, such as donating blood, giving food or clothing to needy, helping sick or elderly and performing religious ceremonies of your faith or meditation.

Those remedies are called "Upayas" in Vedic astrology. The English meaning is "Evasive action" thus by adopting evasive actions or Upayas, you will be able to avoid the full impact of such a bad planetary effect. Ex. if you take a shield or a body armor to a battle, then you have a fair chance of avoiding being injured or effected by the enemy action than a person without such protection. Similarly, the adoption of Talismans or Yantras or other "Upayas" or evasive actions can drastically reduce the chance of being severely effected by the malefic effects of planets.

## *Aerashtaka*

Before telling you about the Planetary transits and Planetary periods or “Dashas”, I will first explain about the bad periods in any persons life called Aerashtaka. and will tell you whether you have such a bad period at this period of time or not. The time spans called Aerashtakas are the bad periods which occur according to the movement of Saturn in relation to the natal planetary positions and constellations. These are the times when past bad Karmas are coming in to effect and torment you. There are “Janma”, “Lagna” ‘Ashtama” and “Suriya” Aerashtaka periods and the most important are the first mentioned 3. Saturn completes one full cycle in “Rashi Chakra” (12 Zodiac Signs) in 30 years, therefore every person who had lived 30 years had all these aerashtakas once and if 60 years twice.

## *Janma Aerashtaka*

Though at this moment you do not have a Janma Aerashtaka which means that Saturn is moving over the Natal Moon, The planet Saturn will move in to the 12<sup>th</sup> house from the position Natal Moon in your horoscope which is “Makara Rashi” or the Capricorn constellation from 24<sup>th</sup> Jan. 2020 which will mark the start of 7 year long rough period for you.

During the period of Saturn’s transit over the position of Moon at birth or the “Janma Aerashtaka”. Following are some of the bad effects you can expect during an Aerashtaka period. You have to be very careful of unexpected incidents such as accidents and sudden ailments. Generally this is a bad period which brings difficulties and mental torment through various different ways.

A period of very high and unexpected expenses. Your abilities may not get the due and deserved recognition and troubles in the work place or at home. Troubles with relatives or family members. Your good name or the reputation is at risk. You may become angry unusually quick. People who were close to you may become your opponents. You may become a victim of false accusations. A bad period for, a close relative, a family member or a friend. Troubles from thieves or people who want to claim or possess the things which belongs to you. Frequent tiresome journeys or travels which brings fatigue and little results. Vehicle break downs, accidents or troubles with law enforcement during the travels. Even if you drive carefully, the others will come and damage your car due to their negligence or frequent repairs required for the vehicle may make you miserable and tired, some people will keep nagging you with out any wrong doing in your part, a stressful period and the beauty and good looks of your appearance may start to wane little by little. Weakness in the body and frequent pains or aches. Painful wound or a ache in the left side of the body specially in the left leg or arm. As soon as you wear clean clothes those become dirty in no time and it appears to others that you are always wearing soiled or stained clothes or having compelled to work in an environment that your clothes become dirty.

This is a period you have to look after your health both physical and mental. To take off the bad influences of Saturn, you can do some of the following remedies at that time. Wear a Silver ring with a blue stone or help an old person having a trouble in legs or giving food to black birds or crows will bring good effects during that time.

## *Predictions*

## Question

### Marriage and the good time for Marriage

Li Zhou the current period from 12<sup>th</sup> September 2017 to 11<sup>th</sup> October 2018 is a very good period for you. If you have recently been through a rough period in your life, then this period indicates a time of healing and balance. Tranquillity and clarity of perspective returns to you and you feel more confident about the future. Physically, this transit promotes healing and has the power to overcome long term problems as well as illness. It is a good time for travel, education, philosophy and writing, however, because this energy is flowing and not highly energetic, it is possible that you will let this time pass without doing much of anything.

On the other hand the planet Saturn is having the effect of cooling your emotions and steadying your personal life. This allows you to have greater control of your emotions. Your mood is sober and mature. You tend to be responsible and traditional in your approach to family matters, which seem more important to you now. There is balance between the demands of your professional life and your personal needs and consequently you feel less stressed. You are more capable of emotional detachment and therefore more able to deal with sensitive issues. You will tend to rely on traditions and habits from the past and your relationships with older people are improved. They can give you valuable advice now. This is a good time to take care of issues related to real-estate. This is a period of examination during which you seek to make your relationships more relevant to who you are as a person. Often you find yourself tied up to social obligations that you find onerous and would rather be free of.

But if you are willing to make changes then this is a good time to look at the broad picture of your life as your perspective is more balanced now than at other times. You will be more able to see what is true about your life now, and not dwell too much on the negative. There is less resistance now for anything that you try to do, so it is a good time to get things done your way. It indicates new opportunities in relation to the houses that Jupiter rules and can show career advancement and elevation of reputation in the activities represented by those houses.

Since Jupiter is lord of your 4<sup>th</sup> house, this can be a time of peace within the home, or you may move to a new house with more spacious surroundings.

Since Jupiter is lord of your 7<sup>th</sup> house, relationships with others open opportunities to see life from a fresh perspective and an opportunity to get married are also a possibility during this period. Relations with foreigners are more likely.

Venus in 7<sup>th</sup> house aspect by Saturn and Ketu therefore doing remedies to Venus should be good in order to remove delays and obstacles to have a good marriage.

Provided that remedies for Venus are done the my best bet is year 2018 for you to get married to a good partner of your liking. That period is good for marriage related matters and it is the best period to get married. Your horoscope indicates that you have the fortune to find a good partner for marriage you may get a very good spouse and most probably a person known to you for a considerable period of time so it is most likely to be a love marriage rather than an arranged one. (See about the marriage partner section in the Reading below for more, but whether it is an arranged marriage or a love marriage you must be careful marry a partner with a matching horoscope ). But you need to be actively looking for a partner at present as this is a good period for that provided that you do remedies to remove the current melfic effects of course. If you have not found some one yet then my suggestion is that first you need to do remedies for Saturn and also should actively look for a suitable partner. There are good matrimonial web sites such as <http://plentyoffish.com>

Apart from that your horoscope has another problem called “Kuja Dosha” The effects of Kuja Dosha seems to cause the person to be victimized in the course of his/her marriage and ultimately the person is likely to be end up in divorced or separated and generally through no obvious fault of ones own. In some cases if this does not happen and spouse is a loving and agreeable person then spouse can die due to some untimely or sudden cause giving the same result of victimisation of a sort. **Therefore doing remedies for Kuja Dosha is also advised**

## *Romance and Marriage*

Virgo born are very intelligent, so they find great difficulty in selecting the partner as they give more importance to intelligence than to pleasure and romance, but in a few cases, you will be disappointed. they are shy and not demonstrative in love. Do not be sensitive, as Virgoans are in the habit of fault finding nature but passionate, they should bear in mind that as you require appreciation for your intelligence, so the people whom you love be praised and admired for their contribution, intelligence dedication and good qualities.

## *As a Spouse*

Virgoans prefer to be bachelor for a long time as they treat married life a partnership or social scheme. But when married they provide all comforts to the partner and family members ,will enjoy good family atmosphere and lead a happy life.

Virgo born people have limited number of children and provide all facilities to them at any cost. Children will maintain good health and enjoy future. They may not show outer affection to the children.

### *Ideal Match*

The persons born in Taurus (Vrushaba), Capricorn (Makara) cancer (Kataka), Scorpio(Vrushika) and Capricorn are best suited for Virgo born persons. Or the persons born on Mondays, Rohini (Rehana)Hast (Hata), Sarvana (Suvana)asterisms(Nakath) are suitable for happy and prosperous relations and partnership.

Janma Nakshtra (Upan Nakatha) is SIYAWASA. Knowledge of the following qualities of this Birth Star is essential when two horoscopes are matched for the compatibility in a business or marriage partnership. The qualities are:Raksha Gana, Welamba Yoni, Kolon Vruksha, Napunshaka Linga, Pruwa Nadi, Maura Pakshi, Krutu Gothra, Sankara Varna, Bahu Rajju, Akasha Bootha.

### *Are there any obstacles for a successful Married life in this horoscope such as - Mangalik Dosh (Kuja Dosh)*

Who is Mangalik (Mars Dominated Native)

Whenever Mars is situated in 1,2,4,7,8,12 th house of a Rashi or lunar chart (Moon chart) it is called as “Manglik dosha, Kuja Dosh, Bhom Dosh or Angaraka Dosh, or Manglik Dosh” in Vedic Astrology. Resulting problems in marriage life or partnership situations. The person will also have to endure hardships in the marriage generated by the spouse. As the person with Kuja Dosh does not have the nature to victimize the spouse.

James Braha in his work “Ancient Hindu Astrology for the Modern Western Astrologer” says that, “The effects of Kuja Dosh seems to cause the person to be victimized in the course of his/her marriage and ultimately the person is likely to be end up in divorced or separated and generally through no obvious fault of ones own. In some cases if this does not happen and spouse is a loving and agreeable person then spouse can die due to some untimely or sudden cause giving the same result of victimisation of a sort.

The mechanics of Kuja Dosh are such, it causes the a person with Kuja Dosh to be attracted to a partner who by his/her very nature can not blend or function compatibly for any great length of time with that person.

I am a Mangalik or a person with Kuja Dosh, when counted from both Rashi and Janma Lagna’s through bitter experience, I can vow for the truthfulness of the word for word of the above statement of James Braha. It appears to me that the people with Mangalik Dosh has grater probability of ending up with or attracting a partner who is less sympathetic or thoughtful:

A common marital problem the people with Kuja Dosha are facing is unfair distribution of responsibilities. For example, the person with Kuja Dosha may be used to do everything in the relationship when it is just the two of them. However, the person may need practical and emotional support from his/her partner once children come along, something that the person may not get from the marriage .

Because he/she may have ended up with a insensitive partner who has:

- Difficulties in empathising with others
- Problems with understanding another person's or the spouses point of view
- Difficulties engaging in social routines such as conversations and 'small talk'
- Problems with controlling feelings such as anger, depression and anxiety, no interest in expression of love or attachment or even the sexual feelings of the partner or apathy.
- A preference for routines and schedules which can result in stress or anxiety if a routine is disrupted
- Specialized fields of interest or hobbies.
- Average or above-average intelligence

In modern day medical terms this situation is described as Asperger syndrome which is one of the autism spectrum disorders.

And the ancient people described the effect of this syndrome on the marriage of the person as Kuja Dosha because the person with Mangalik Dosh is more likely to end up with a partner with certain elements of Asperger Syndrome and being Neurotypical can become victimized from the autism related behavior of his/her partner

Mangalik Dosh effects seems to be more severe in the natal charts, where Mars becomes functional malefic i.e. Virgo, Scorpio and Taurus ascendant charts.

The way out of Kuja Dosha is for a person with Kuja Dosha to Marry an Another with Kuja Dosha.

In your case Mars is with Moon (and a Mangalik in relation to lunar lagna).

Mars is a M malefic planet for Virgo.

Mangalik Dosh effects seems to be more severe in the natal charts where Mars becomes functional malefic i.e. Virgo, Scorpio and Taurus ascendant charts, it can generate the results of the so-called Manglik yoga (Kuja Dosha yoga).

Since your Lagna is Virgo and Mars is in Chandra Lagna, Your Chart has the Kuja Dosha.

## *Cancellation of Kuja Dosha*

It is not enough to find out whether some one has "Kuja Dosha", the most important part is to find out whether there are other yogas which may counteract

and cancel the bad effects of the said yoga and also what remedial measures are available to get relief from the bad effects.

Your Kuja Dosha is not cancelled from other combinations therefore it is advisable to do some remedies.

First of all, I must say that, to tell something more reliably about a person, you have to check that particular person's horoscope and not some other persons chart. Following are some methods used by certain astrologers to tell about the spouse's profession, character properties and the direction, the person is living.

Profession of the spouse is usually told by the Lord of the 4<sup>th</sup> house and the Lord of the Navamshaka where the Lord of the 4<sup>th</sup> is positioned.

and others say it is the direction of the Lord of the Navamshaka house, where the Lord of the 7<sup>th</sup> house is positioned.

## **End of answering Question**

### *Detailed readings for the rest of future years*

I have given a comprehensive detailed readings for roughly about 5 years to the future the things which might expect to happen. However good a doctor may be , no Doctor can prescribe medicine for all the ailments expected to happen to a person in years to the future, for an astrologer it is also the same. Apart, I like my clients to come back to me after a period of time, at least once in 5 years back to me for consultation. To get detailed yearly readings for the future. Also 5 years is enough time to see and practically verify whether the said things had materialized or not as said in the reading in slightly modified variations or not .

## *Health and Disease (General reading from here downwards)*

Virgo born people enjoy robust health with long life and healthy old age. Active, look younger and age in youth. They are particular about their health. High living and deep thinking should also be avoided. Be cautious against gall-stones. Use vegetarian and balanced diet. Have plenty of rest and enjoy calm surroundings.

When malefices are posited in Virgo, like in your case one suffers from dysentery, during these periods. You will have minor injuries very often and it is likely that you may meet with accidents, so do not drive rash. Virgo indicates bowels, kidney, large intestines, mesentery, anus and nervous system. When Lord of this sign Mercury is afflicted one can suffer from the above diseases.

## *Finance*

Being of a commercial instinct, you should be careful about your money. Hard work will pay you in life and bring you to top. Return of investment will be poor.

## *Traits to be corrected.*

Virgo born persons should not be so sensitive, critical, conversationalist and chatty. Avoid too much calculating and detail finding nature. Fault finding habit be avoided. Should have self confidence and avoid nature of changes. Should judge and should not seek other's advice too often to confuse himself. But stick to a single person's advice. Revengeful and long sustained sentiment to be avoided.

## *The End*

Li Zhou, “The Book of Life”, I have prepared specially for you is now completed. I do sincerely hope that the book will become a useful companion to you for many years to come and face bravely to the ups and downs of life with a new understanding.

## *The Next Step*

Though this reading may seem to you an exceptionally a lengthy one, I must admit that what I have written here is barely the minimal a scratching of the surface of a vast repository of knowledge. If you need to look further deep in to your life, then the best next step for you is to refer in to and find out what things are said about your own particular planetary positions on the classical root texts of Vedic Astrology.

Such as the most authoritative classical text” Brihat Parashara Hora Shastra” written by Maharisha Parashara , “Saravali” written by the king Kalyana Varma, “Garga Hora” by sage Gargacharya, and “Hora Sara” by sage Prithuyasas.

For a charge of Additional \$35, I can send you the results of literature searches pertaining to you, from the above books. But I must warn you these are not my readings, but parts of texts matching the positions of planets in your horoscope, those are thousands of years old texts and hence not all the readings will be applicable to the modern conditions and a modern day person. With the blessings of god , may you be always happy and well.

## *How to understand the Astrological Charts supplied with this reading*

Traditional Sri Lankan Astrological chart.

Written in ola leaf usually provide only the two main Astrological charts, the Rashi Chart and the Navamsha chart. The additional descriptions are mainly based on Janma Nakshtra which are transcribed from the Almanac of Panchanga. It is non detailed but lengthy. Dala Kendra: Usually handwritten in a one sheet of paper also contains approximately the same information.

## *How this reading was prepared for you*

I first check the chart for Yogas (Planetary combinations) and also do the literature searches in classical ancient texts like Brihath Parashara Hora Shastra etc using computer. So I can get a good idea of the horoscope quickly and I do not miss important combinations. Parts of the reading like How to understand the birth charts provided with the reading and some introductions like what is, Astrology, what is navamshaka chart, Remedies for Saturn or Kuja Dosha, certain chapter headings and explanations etc. are pre written in a Word Document Template as they do not change and can be used again and again to save time. The rest I do manually as a computer can not do the lateral thinking . The result is a combined product of the best of computer use and the best of human intelligence.

Since I do acknowledge that my knowledge is not perfect and keep always learning and forgetting etc. and do not have a desire to claim that, I am a person who invented some new techniques in astrology, I try to adhere to the commonly accepted and tested recommendations and prediction techniques in vedic astrology of which I too do agree with. Almost every paragraph I have given in this reading is confirmed by some one some where and can be traced back to original works like Brihath Parashara Hora Sastra, Saravali ect. I did not take those from out of the blue with my imagination. Perhaps some one may say that certain parts I have just cut and pasted from commonly used astrological texts like the above, but that is better and more responsible way than telling some thing which is unsupported by any other person or work. Therefore if this reading is acceptably Ok (I do not say this is 100% correct, try to write, not 30 but 3 pages about yourself and check how many statements are absolutely correct and you will understand the difficulty) then the credit should go to all those people who have investigated and published their observations including Sage Parashara, King Kalyana Warma etc. who lived thousands of years ago down to modern day Astrologers of East and West.

## *The Charts supplied*

Are more detailed and presented in point form as it is Calculated and Generated by an advanced computer program. If calculated manually, the same information I have given will take at least one full day to calculate. (If you do not believe ask any astrologer in Sri Lanka or India). This way the charts are more accurate more detailed and easy to read and interpret. For a detailed interpretation of charts please refer to the actual Reading (which is the interpretation of those charts manually word processed using MS Word) given to you and also have a look at my web site <http://jyotisha.00it.com>. For free vedic astrology lessons.

## *A word about the reading*

You are encouraged to show this reading to other genuine Vedic astrologers or your family astrologer. The reason is, this reading can be only be properly appreciated by either an another astrologer or a person who knows Vedic

astrology well. As they will only understand that how much effort had been put in to prepare a reading like this.

Generally, people who have no idea of the subject, get overwhelmed by the amount of the information and the size of the reading. Yes, It could have been very much easy and time saving for me to just make the statements with out giving you the underlying reasons or concepts behind it thus making the reading short. But then it becomes just a consultation of a fortune teller. What I did here with you was not the fortune telling. What we had done together was an exploration and investigation of an area of human knowledge with a history dating back thousands of years. Even with that much of knowledge behind us, where ever the reading has gone wrong means that we have entered an area which is still not sufficiently explored and documented.

Since this could be a completely new subject to you, I have tried hard and spent a lot of time explaining the actual concepts and terms, taking care that, not to loose you while we were diving deep in to the subject. When doing it, unfortunately it becomes hard to make the reading smaller. But with all that trouble, still there may be some words unfamiliar to you, therefore please print the reading first and then read it slowly and carefully.

Description of Charts:

1. Please look at the charts. In the Box at upper left hand corner in addition to the name, date and place of birth, the geographic coordinates of the place of birth and the time zone information are provided.
2. Below it, under the heading "Rashi" is the main Rashi Chart given in the traditional style of presentation adopted in Sri Lanka and North India. "The Lagna" or the Birth Sign is the Rashi or the constellation name indicated at the middle center of the Upper Part of the main chart.
3. The adjoining chart under the heading Navamsha is the "Navamsha" or the secondary Chart. The numbers mentioned there are the time in minutes and seconds the particular Navamsha (or the one ninth portion of the constellation mentioned in the main chart) had started rising and finished appearing in the eastern horizon within the hour of birth.
4. The big Circular chart is again the Main Rashi Chart, but more accurate and detailed as it shows you a two dimensional picture of the sky at the place and time of birth. Clearly showing the constellation rising at eastern horizon as "Lagna" or the Birth sign and giving the exact positions of the planets. (Left hand side indicated as Lagna is East, Right is West top is over head).
5. In the next row from left to right are the Bhava(House), Droshkana (Decants), Chandra (Moon) and Gochara (Transit) charts.
6. Below it, there is a long table. The abbreviations for the headings are, Lg means lagna, Su means Suriyaor Sun, Ch means Chandra or Moon etc., R = Retrograde (Vakra), C = Combust (Astha), P = Nakshtra Pada, #lrd/sb = Nakshtra Pada Lord (Adhipathi) and Sub Lord (Upa Adhipathi), Under Dignity - Shown are Ucchha, Neecha Sama.. Etc. Conditions of planets, SB

means Sarva Bala, AV 5 shows the Graha Avasta in 5 categories such as old, youth, infant etc. With this table it is very easy to find information.

Example: Where is the (Upan Nakatha) Janma Nakshtra ? Janma Nakshatra means the Nakshtra or the Sub Constellation moon was in at the time of birth. So look across the 3<sup>rd</sup> Row of the table where the details of moon (Ch) are given. It shows the degree moon was in, the Rashi, Nakshtra, pada ect.

7. Next box is the Bhava Adipatitha or the Lordships, there L1 means Lord of Rashi 1 or lagna, L2 means the lord of the 2<sup>nd</sup> house etc.
8. In the next row the first table at the lower left hand corner shows the starting Days of Maha Dasha and Anthar Dasha (Major and Sub periods) according to Vimshottari System we use in Sri Lanka. To find out how many days left from the particular dasha at present, subtract the date of interest from it. In case of a new born child subtract the date of birth from the very first row.
9. The next table and the chart are Pertaining to the ashtakavarga system. Usually the areas with higher values numbers are good. Average is 25. So the houses with more then 25 marks are good.

## Appendix 2

Introduction:

Since, this may be a completely new subject to you. I have tried to explain some of the terms used in the reading as much as possible then and there within the context of the reading. Unless you have some knowledge or a background in subject of Vedic Astrology, I acknowledge that it will be bit difficult to appreciate and comprehend all the information provided in a reading of this caliber which is written according to genuine Vedic Astrological principles. If you are interested in learning, then you can get additional information from my web site <http://jyotisha.00it.com> click the link “Learn astrology “ about the basics of Vedic Astrology.

### What is Jyotish

Jyotish: is a Sanskrit term derived from two roots :Jyoti which means light and Isha, which means Lord or God therefore the complete meaning of it is the light of god. It is a science of the study of heavenly lights and their effects on human life. In ancient scriptures Jyotish Astrology was given such an important position that Jotish was defined as the eye of the “Veda Purusha” the Vedic teachings personified in a mythical human.

## *What is Horoscope and the Birth sign*

A horoscope is a two dimensional picture of the sky indicating the positions of the planets and also the constellation appearing at the eastern horizon ( This particular constellation is your birth sign according to the Jyotish) at the time of birth of a child. The horizon changes according to the position of the observer, therefore the horoscopes of two people are never the same. Even of the two people born in the same town at the same day or hour are not the same. That is why, it is necessary to have the exact time, map coordinates and the tables of Ephemeris for that particular year to calculate a horoscope.

## *What is different about Jyotish*

Though the basic principal is the same in both the Western Astrology and the Vedic Jyotish, they belong to two different schools of tradition, Therefore the methods of predictions and the presentation of the horoscopes are also different. It is very important that you should not get confused by it. Because, according to the Western tradition for example all the people born between March 21 - April 20 are of the same sign (Aries) but according to the Jyotish the signs are constantly changing.

Therefore, you may find that you are in a completely different sign called “Lagna” under the Jyotish system.. Millions of people living in Indian Subcontinent use Jyotish or Vedic Astrology. And the astrological texts used even today were originally written thousands of years ago by scholars called Riches or holy Sages. A number of such texts are dedicated to mathematics of how to calculate the planetary movement and the positions. Therefore It is interesting to note that those calculations are amazingly accurate and in many cases the results are almost similar to the modern findings.

With no help of advanced instruments or computing aids, those were very remarkable achievements. And it is a tribute to the dedication and the knowledge of such great masters, the system of prediction they have devised was able to stand up to the test of time and billions of people who lived through hundreds of generations were able to be benefited by it .

Very few people living in the Western countries are aware of the existence of Jyotish. It is because, though the knowledge of Jyotish can be transmitted through books , the actual system must be transmitted through a Guru (Teacher) who has received the needed spark or initiation from his teacher, one light igniting the next, generation after generation right back to the founders. It also not enough. A person need to have the aptitude, the genuine desire, ethical standard and the experience to be a good Astrologer.

Planets in the solar system are like an accurate clock in the sky. Their revolutions and movements are very precise. Planets rise and set at definite times. Astrology is a system of observations gathered through ages indicating such and such things are highly probable to happen to the people when such and such planetary

positions are prevailing. An analogy is like looking at a colour traffic light system and decoding what each of the colour light such as red , yellow and green are meaning and saLing that if some one goes when the red light is shining he or she is highly prone to be met with an accident or when green light is shining it is highly probable that he or she will have a safe passage

Likewise in Astrology also, there is no definite saLing because such things can not be told hundred present accurately. Similarly even when the green light is shining you can not give a hundred present guarantee of safe passage as accidents may occur due to various other reasons. Life is a very complex thing many influencing factors are taking part during the course of a persons life It is dynamic, constantly changing, even the Gods will (Or the destiny or the karma) can be changed with prayers and other religious activities.

Therefore, if any person ( no matter what system he uses ) says that, all of his predictions are going to be true. Then be careful. He or she is not a genuine Astrologer because it is never ever an achievable thing for an ordinary mortal human being.

### *Is it worth the trouble ?*

Many people spend large sums of money every year and purchase various kinds of insurance policies. That is due to the unpredictability of the future. Therefore even the smallest prior knowledge, of the possibility of an occurrence of an event (according to the horoscope) and being on alert by taking extra precautions for the avoidance such an incidence happening, can give a greater advantage to a person which can save him from pains and expenses worth thousand of dollars.

Generally a remarkable degree of accuracy and the correctness of reading can be achieved and for that it is absolutely necessary to have the exact time of birth as it is the one and only peace of data used in deriving the predictions. People living in Eastern countries usually know the exact birth time. In countries with Western traditions generally it is very difficult to get the exactly correct birth details as many people do not know their correct time of birth.
